

Cryptzone seeking Public Listing

Gothenburg 8th November 2007 –

Cryptzone's Board of Directors today announced its decision to apply for public listing at First North. Cryptzone, formerly known as Secured eMail, is the Nordics leading provider of data leak prevention solutions.

The company is today active in The Nordic, German, and US market and has experienced substantial growth in the past year. This is an encouraging sign for the global expansion strategy.

"I see the public listing as a very important step in our global approach", says Peter Davin, CEO for Cryptzone. "The name of the game today is to be quick on your feet and accommodate global changes in the marketplace. A public listing will give us more flexibility to expand our position as a leading player and respond more quickly to these changes, enabling us to be more competitive."

About Cryptzone:

Cryptzone is a recognized leader in data leak prevention solutions that secure data at rest and in transit. Its mission is to provide security technology that people actually can and will use, thereby increasing the overall data protection and minimizing data leaks. Cryptzone helps users secure email, files, folders, disks, USB sticks and mobile terminals without forcing users to change the way they work, while giving IT departments' complete control of user rights. The company has offices in Gothenburg, Sweden, New York, US, and Mannheim, Germany. For more information about Cryptzone and the company's portfolio of encryption solutions, visit www.cryptzone.com
