

Cryptzone, Sweden's leading Content Security Solutions Company signs agreement with HSB

Gothenburg, December 4th 2007- Sweden's largest housing co-operative HSB, with more than 540.000 members, has today signed a general agreement with the leading supplier of data leak prevention solutions in the Nordic region: Cryptzone AB. The agreement enables local HSB associations to implement the technology to secure sensitive information and prevent data leakage.

" We are very pleased to have been selected as the supplier for content security solutions to HSB. In Sweden today there is an increase in the awareness regarding content security as not only being a problem for the IT departments to solve but rather being an issue that should be present and discussed at management level. The two most business critical assets an organization have are their staff and their business information. HSB has recognized this and has chosen to increase the security with our award winning content security solutions. We will assist HSB in implementing a comprehensive content security solution plugging all possible data leak holes" says Rami Avidan, COO and co-founders of Cryptzone AB.

Cryptzone today delivers an encryption solution to many major companies such as Länsförsäkringar, LE Lundbergs, NCC, COMHEM, 2:a AP-fonden, 4:e AP-fonden, 6:e AP-Fonden, 7:e AP-Fonden, Wallenstam., KPMG and VALEA. Cryptzone's modular platform solution: SEP – Simple Encryption Platform, offers modules for encrypting and securing emails, files/ folders, USB memory sticks, hard disk drives and servers as well as a data leak prevention solution for email, FTP, HTTP or USB ports. The Simple Encryption Platform comes with an intelligent management console from where all modules can be centrally managed.

About Cryptzone:

Cryptzone is a recognized leader in data leak prevention solutions that secure data at rest and in transit. Its mission is to provide security technology that people actually can and will use, thereby increasing the overall data protection and minimizing data leaks. Cryptzone helps users secure email, files, folders, disks, USB sticks and mobile terminals without forcing users to change the way they work, while giving IT departments' complete control of user rights. The company has offices in Gothenburg, Sweden, New York, US, and Mannheim, Germany. For more information about Cryptzone and the company's portfolio of encryption solutions, visit www.cryptzone.com
