

## Cryptzone partners with one of Germany's largest distributors

**Gothenburg, 7th February – The Nordics leading data leak prevention company Cryptzone today announced the signing of a distribution agreement with Wick Hill Germany, one of Europe's leading international value added distributors specialising in secure infrastructure solutions for Business.**

Cryptzone has extended Wick Hill's current portfolio of security products by adding Cryptzone's Simple Encryption Platform (SEP) – a centrally managed solution to prevent data leakage. SEP provides a powerful framework for granular encryption policy management by individuals or groups with automated control across multiple encryption applications such as email, USB, hard disk and file/folder encryption.

"Cryptzone made channel development a top priority which included partnering with well respected value add distributors" says Rami Avidan, COO of Cryptzone "Wick Hill has an excellent reputation for their strong information security focus and first class technical services, which makes us confident that this partnership will allow us to greatly expand our market share in Germany."

"Wick Hill is happy to forge a relationship with Cryptzone due to their expertise in the area of easy-to-use Data Leak Prevention and encryption solutions. With this partnership, we will enhance our enterprise information security offerings with the high level of manageability and assurance provided by Cryptzone's Simple Encryption Platform" says Mr Helge Scherff, Sales Manager of Wickhill Germany.

### Cryptzone and Wick Hill will exhibit together at CeBIT 2008 March 4th – 9th in Hannover

#### About Cryptzone:

Cryptzone is a recognized leader in data leak prevention solutions that secure data at rest and in transit by applying the industry strength Simple Encryption Platform (SEP). Cryptzone provides security solutions that people and companies actually can and will use, thereby increasing the overall data protection and minimizing data leaks. Cryptzone secures email, files, folders, disks, USB sticks and mobile terminals without forcing users to change the way they work, while giving IT departments' central control of user rights. The company has offices in Gothenburg, Sweden, New York, US, and Munich, Germany.
