

## Cryptzone signs record order for SEK3.5 million

**Gothenburg, April 2<sup>nd</sup> 2008 - Cryptzone, the Nordics leading Data Leak Prevention provider, today announced that it had signed a contract with Jussystemer a Norwegian software company specializing in software for lawyers , the insurance business and the judicial system. The total value of the two year contract, including support and maintenance is SEK 3.5 million.**

The contract continues a long string of recent wins for Cryptzone. In the last few weeks, Cryptzone has signed contracts with companies such as Lucent Alcatel, Arthur D Little, GE Moneybank and LUMC, one of Netherlands leading hospitals, as well as the British Government.

“When providing security solutions to the legal industry, it is important that the new solution be deployed with minimal disruption and without requiring recipients to purchase any additional software or change their working environment. Jussystemer chose Cryptzone after extensive piloting and testing of the product as the “best of breed” solution for data encryption. This contract gives us the ability to provide that latest data leak prevention solution to our customers with a very low TCO – Total Cost of Ownership” says Steven Portch, CEO of Jussystemer.

“We are extremely pleased that Jussystemer have chosen our solution. This proves yet again that our solutions are well positioned in the DLP – Data Leak Prevention industry.” says Rami Avidan, COO of Cryptzone. “This latest contract highlights Cryptzone’s proven ability to deliver enterprise data encryption solutions that provide high security whilst remaining transparent for the users. With companies under such intense scrutiny when it comes to the security of data, they are increasingly turning to proven solutions from Cryptzone to ensure complete data security.”
